Summary

Ph.D. economist with five years of professional experience in public finance and impact evaluation. At the IDB, leads the evaluation of tax compliance policies with Brazil's Federal Revenue Service using administrative data, has designed randomized and quasi-experimental evaluations of subnational tax administration programs, and trains state officials in impact evaluation. At UNDP, supports gender-responsive fiscal policy analysis in Africa and Latin America, including fragile and conflict-affected settings. Negotiated the G20 Rio Declaration on International Tax Cooperation (2024). Fluent in Portuguese and English; intermediate German and Spanish.

Professional Experience

Inter-American Development Bank (IDB) — Brazil Country Office *April 2025 – Present*
Consultant on Fiscal Policy and Public Sector Efficiency, Fiscal Management Division

- Lead the impact evaluation of data-driven tax compliance policies for small businesses under the Simples Nacional regime, in partnership with Brazil's Federal Revenue Service (Receita Federal). Apply difference-in-differences to administrative tax records through a privacy-preserving workflow in which code is developed on mock data and executed by the tax authority on confidential records.
- Co-organize the Federal Revenue Service's first Impact Evaluation Workshop (Brasília, November 2026) and, as in the 2025 edition for São Paulo's state finance secretariat (SEFAZ-SP), teach methods sessions and tutor teams of officials designing evaluation plans for their own initiatives.
- Designed impact evaluations of subnational tax administration programs under PROFISCO II and III, the IDB's credit lines for fiscal management modernization, including two randomized experiments developed with state finance secretariats.
- Evaluated Paraná's new electronic tax dispute system (e-PAF), resulting in a working paper on digitalization and efficiency in tax administration.

UNDP — Headquarters (remote) *June 2025 – Present*
Consultant on Fiscal Policy and Gender Equality, Gender Team

- Serve as the public finance expert for EQUANOMICS, the Gender Team's flagship initiative linking gender equality and fiscal policy.
- Provide technical guidance to UNDP country offices and consultants applying econometric tools and economic analysis to gender-responsive fiscal reforms in Africa and Latin America, including Rwanda, Zimbabwe, and fragile and conflict-affected settings such as Somalia and Sudan; developed training on a geospatial conflict needs assessment tool for Sudan.
- Develop training materials and methodological guidance notes, and train country office staff on the economics of integrating gender equality into fiscal reforms.

Brazilian Ministry of Finance — G20 Presidency *April – Aug 2024*
Tax Policy Advisor

- Negotiated and secured the adoption of the Rio de Janeiro G20 Ministerial Declaration on International Tax Cooperation (July 2024).
- Coordinated high-level dialogues among G20 delegations and UN and OECD representatives to build consensus on international tax cooperation.

World Bank — Poverty and Equity Global Practice*Feb – April 2024*

Short-Term Consultant on Indirect Taxation, Western and Central Africa

- Assessed the fiscal and distributional effects of Cabo Verde's VAT by integrating household budget surveys with administrative tax data to distinguish formal from informal consumption.

Inter-American Development Bank (IDB) — Research Department*Jan – March 2024*

Short-Term Consultant on Business Dynamism

- Produced analytical reports on firm dynamics and market concentration in Latin America.

Public Procurement in São Paulo Project*July 2023 – Jan 2024*

Research Assistant, PIs: Michael Best (Columbia) and Joana Naritomi (LSE)

- Built and analyzed large procurement and electronic invoice databases to map the most procured products, bidding dynamics, and winning firms in São Paulo's public purchases.

Research Center on Macroeconomics of Inequalities (MADE/USP)*April 2021 – Dec 2023*

Research Fellow on Inequality and Taxation

- Coordinated the team that developed BRASMOD, Brazil's first open-access tax-benefit microsimulation model (EUROMOD/SOUTHMOD), now used by the Brazilian Ministry of Finance.
